

# ARM YOUR ORGANIZATION WITH THE CAPABILITIES ESSENTIAL TO THRIVE IN YOUR SPACE:

## Marketing & Promotions

Promote your organization with special offers, incentivize repeat business, bring in new customers with keyword sign-ups, send mobile coupons in a flash - use for any campaign to attract customers and drive more business.

## Customer Service & Support

Respond to customer questions & issues in real-time, resolve complaints before they become negative reviews - be there instantly for your customers and drive up customer satisfaction, ratings & reviews and your perception in the market.

## Payments & Donations

Enable customers to pay you immediately, anytime via instant, convenient e-pay technology they will use again and again. Once payment details are stored, customers simply text a keyword + dollar amount and their payment is secured.

## Surveys & Voting

Poll your audience for critical feedback, enable real-time voting at events, gauge recent customer experiences and more - acquire vital information with this dynamic, adaptive capability.

## Alerts & Notifications

Send updates to customers, order confirmations, emergency alerts in seconds, helpful tips and beyond - instantly engage your audience to reply, take action or simply view valuable information leveraging this essential feature.

## Scheduling & Reminders

Allow customers to schedule appointments or reservations on-demand via an automated, interactive system - and cut down no-shows using appointment confirmations, calendar invites and timely reminders that keep you top-of-mind.

## Tracking & Delivery

Geolocate drivers anytime & enable turn-by-turn directions, send status updates and ETA to customers, allow the recipient to track their delivery or service call in real-time via a maps application - revolutionize your customer experience with this cutting-edge capability.

## Employee & Staff Communication

Connect instantly with your employees wherever they are. Send reminders & urgent messages, deploy surveys, alert reps of leads or customer issues and communicate in real-time en masse or 1:1 through this valuable, productive feature.
